Vicom Staffing Services
Maintain the appropriate talent, resources, and skills

VICOM

With over 30 years of experience in providing solutions, technology and services—and 18+ years providing Staffing services—to all types and sizes of organizations, Vicom can help. We deliver Staffing solutions that help organizations bring on the right talent and skill sets when needed. Our comprehensive background reviews and technical "vetting" helps to ensure that we provide the right resources for you—resources that make sense—and we will be very open and communicative throughout the process, so you know exactly what you are getting.

Addressing Challenges

Hiring and maintain the appropriate talent, resources, and needed skills is one of the most important things an organization can do today.

Published studies have shown that upwards of 50% of all hiring is incorrect – meaning the wrong person is hired for the job. This causes lost time, lost resources and ultimately lost money for the organization.

In today's fast paced environment, organizations are looking for effective ways to bring on talent and personnel and to ensure that they hire effectively. The need to train people quickly, and the need to hire quickly to meet ever-changing business and operational needs, is critical. Acquiring the correct talent (be it full time, hourly, or project-based resources) is a major challenge, and that is where utilizing a competent Staffing firm can help.

With a team of consultants and hundreds of staffing placements throughout the years, Vicom can help by providing you staffing services that include permanent placement, contract to hire, hourly and project-based services for all types of companies and all types of IT environments. Vicom can help by providing tailored Staffing solutions that make sense to you.
